

Your exciting career in the world of automotive & mobility starts here!

The automobile is transforming like never before. From a completely mechanical assembly of components in the early 1900s to an electronics and software powered complex machine.

In the quest for CLEANER, SMARTER and SAFER mobility, Automobiles are seeing a surge in features that changes the experience of using a vehicle and software technologies are at the core of this change.

The modern automobile has more than 150+ million lines of code and the most advanced technologies are already being deployed from AI to Cloud Computing to Over the Air updates and more.

Are you a passionate engineering graduate, eager to make your mark in the automotive world?

Look no further!

KPIT Technologies Ltd, the technology partner to global automobile leaders, is conducting a campus drive exclusively for fresh engineering graduates like you.

Why KPIT?

At KPIT, we have been shaping the future of mobility for over three decades, and we invite you to be a part of our journey.

We have built expertise and global scale in areas such as embedded software, AI, and digital solutions, making us a leader in automotive mobility.

As an independent software development partner, we are helping the automotive and mobility industry leapfrog towards a clean, smart, and safe future.

Some of our key clients

HONDA
The Power of Dreams

PACCAR

You will be part of a global team of **12,000+** passionate engineers whom we call Automobelievers

So how do you become a part of this exciting world?

As a part of our freshers' 'Internship' and 'Genesis' programs, you'll receive top-notch training and mentorship from our practice leaders and subject matter experts.

This will equip you with the skills and knowledge needed to thrive in the ever-evolving automotive landscape.

Unlocking your earning potential

The salary structure is designed to reward excellence.

Unlock your earning potential with a competitive package ranging from INR 4.5 LPA.

Upon completing your first year with us, your performance will be assessed, and you will be elevated to the next level. Top consistent performers can expect their salary to be scaled up to INR 17 LPA within three years.

* 2 years of service agreement applicable

Apply now to be a part of our journey in shaping the future!

*Based on the business requirements, you will be aligned to one of these requirements

YOU will be building Software Solutions for new age mobility!

Thank you !
